Part III DETAILED ACTION

Claims 1-3 are currently pending. ,

Restriction Requirement

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 1, drawn to peptide SEQ ID No. 1., classified in class 530, subclass 350.
- II. Claim 2, drawn to peptide SEQ ID No. 2., classified in class 530, subclass 350.
- III. Claim 3, drawn to peptide SEQ ID No. 3, classified in class 530, subclass 350.

The inventions are distinct, each from the other because of the following reasons:

Inventions of Groups I-III are drawn to independent and/or patentably distinct compounds since each of these compounds possess different structure (e.g., primary, secondary and tertiary structure) and/or physico-chemical properties, and/or capable

Art Unit: 1631

of separate manufacture and/or use. These compounds do not share a common structure which elicits a common activity.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
